PAUILLAC

OPENING TIME

Château Pichon Baron is open every day of the year upon appointment: the visit of the estate and the vertical tastings.

Our tours start in the vineyard, which is at the heart of all we do. After discovering the winemaking facilities and cellars, visitors learn more about Pichon Baron by tasting three wines. Our guides are trained by the estate's technical team.

In addition to visiting Pichon Baron, you may request a tailored tasting of the Grand Vin Château Pichon Baron. This seated, commented tasting is led by a member of our team, and provides an opportunity to discover our exceptional vintages.

All visits are individualised and available by reservation only.
