"The wine of kings and the king of wines", Tokaji Aszú is indeed magical. At Disznókő, the grapes guide us in our quest for the pure and balanced expression of their quality and of our precious terroir.

I am delighted to share with you our unique Aszú wines created by our devoted team since 1992. Contemporary noble wines with perfect balance between the purity of the fruit, the freshness of the grape varieties and the complexity of Botrytis cinerea. We are also proud of our original range of dry white wines, made with autochthonous varieties that reflect the prestigious terroir of Disznókő's vineyard.
